Title: POLYAMIDE-BASED MULTILAYER FILM  
Attorney Docket No.: SAEG124.004APC  
Pub. No.: US 2007/0042206-A1  
Pub. Date: February 22, 2007

This is a decision on the request for a corrected patent application publication under 37 CFR 1.221(b), received on March 29, 2007, for the above-identified application.

The request is DISMISSED.

Applicants request that the application be republished because Takehiko Toyonaga was not listed as an inventor on the front page of the patent application publication.

37 CFR 1.221(b) is applicable “only when the Office makes a material mistake which is apparent from Office records. Any request for a corrected or revised patent application publication other than as provided in paragraph (a) of this section must be filed within two months from the date of the patent application publication. This period is not extendable.” A material mistake must affect the public’s ability to appreciate the technical disclosure of the patent application publication, to determine the scope of the patent application publication, or to determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.<sup>1</sup>

The instant request does not identify a material mistake in the publication made by the Office under 37 CFR 1.221(b) with respect to the omitted inventor information. The error does not affect the public’s ability to appreciate the technical disclosure of the patent application publication, determine the scope of the patent application publication, or determine the scope of the provisional rights that an applicant may seek to enforce upon issuance of a patent.

Applicants are advised that a “request for republication of an application previously published” may be filed under 37 CFR 1.221(a). Such a request for republication “must include a copy of the application in compliance with the Office electronic filing system requirements and be accompanied by the publication fee set forth in § 1.18(d) and the processing fee set forth in
